Novelties

Milos, Hamptons, Posidonia, Tulum, & Iglu

press@vondom.com
vondom.com/press

At Vondom, we have always been known for offering innovative and unique designer outdoor furniture. Since we began our trajectory in 2008 manufacturing designer planters and furniture with simple lines, our hallmark has been innovation. These new collections of outdoor furniture respond to an evolution marked by our search for greater sustainability, incorporating natural, 100% recyclable materials.

Jean-Marie Massaud

Milos

Since the beginning of his career (a 1990 graduate of Paris' ENSCI-Les Ateliers, Paris Design Institute), has been working on an extensive range of works, stretching from architecture to objects, from one-off project to serial ones, from macro environment down to micro contexts.

Beyond his elegant designs, his quest for lightness – in matters of essence – synthesize three broader stakes: individual and collective fulfillment, economic and industrial efficiency, and environmental concerns. "I'm trying to find an honest, generous path with the idea that, somewhere between the hard economic data, there are users. People."

Ramón Esteve

Hamptons, Posidonia, Iglu

Ramón Esteve Cambra is Architect and Designer. In 1991, he founded Ramón Esteve Estudio with the premise that architecture is a global discipline.

His training as an architect became a transversal vision where Architecture and Design form one single concept, almost inseparable, both generated under the same laws and the same design premises.

Its aim is the development of complete environments through a mutual interaction between both disciplines, so design acts on architecture and vice versa and the importance and difficulty of both disciplines are equally acknowledged.

Eugeni Quitllet

Tulum

The Catalan designer Eugeni Quitllet was graduated from 'La Llotja' art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects.

Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour.

Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed.

Milos Collection

Jean-Marie Massaud
2023

For this new collaboration with Vondom, I wanted to evoke the original identity of this brand born between the sea and mountains in València.

Milos different pieces are like a collection of rocks gently shaped by winds and waves that create a typical Mediterranean landscape. My intention was to bring to Vondom a non-Cartesian planning that you can combine organically, as life on a reef.

Milos is a very versatile collection with flavours. Milos items sweet shapes put you in a good mood and invite you enjoying the moment; the day under the sun, at night looking the stars or partying with friends. The different pieces can come in contrast in a very modern environment, as well as in a perfect harmony with an outdoor landscape, in a residential configuration or on a large hotel terrace.

“Milos is an informal collection. It’s about business, comfort. It’s aventing, generous and also organic. Is a place to be ease.” – Jean-Marie Massaud –

Hamptons

Hamptons Collection

Ramón Esteve
2023

Sophistication and exclusivity describe the lifestyle of the society that Scott Fitzgerald masterfully portrayed in his famous novel, *The Great Gatsby*.

The idea of living in this era evokes a sense of mystery, intrigue and luxury that inspire this Hamptons collection.

An aspirational collection that embodies the American dream and its alluring outdoor lifestyle of quiet, relaxed, contemplative living.

That prosperity is framed by a favourable location and climate, a warmth here represented by materials such as the wood on which its arms rest or the fabrics draped over its polished metal rod structure.

Its striped patterns take us directly to the sand on which we are reminded of hammocks and ephemeral constructions built from simple crossbeams and stretched fabrics that we can feel vibrating in the breeze.

Posidonia

Posidonia Collection

Ramón Esteve
2023

Posidonia was born as the evolution of an iconic piece conceived by Ramón Esteve in 1996, which marked his introduction into the world of design.

In 2022 Vondom takes over the production of this famous family under a new edition baptized as Posidonia Collection, connecting with its Mediterranean origin and drawing attention to the desire to protect the oceanic posidonia meadows, so important for its ecosystem.

Made from thermo-lacquered aluminium profiles in different shades and 100% recyclable HPL, Posidonia is composed of numerous pieces such as sun loungers, high tables, low tables, tables with wheels, chairs, stools, benches and armchairs.

Tulum Collection

Eugeni Quitllet
2022 - 2023

“Tulum is more than a collection, it is a place, it is your personal space where you can live and share experiences with the people you love the most, a place where dreams come true.

Tulum is a set of pieces that bring a new dimension to your habitat, extending the demands and comfort of the interior to the exterior while maintaining a superior quality capable of withstanding the environment with total naturalness.

It is the perfect balance between natural and high-tech materials that blend into an elegant and modern harmony that does not go unnoticed... like a magical sunset or night in your favourite landscape!

A collection to live freely anywhere in the world!

Tulum is your place...”

Iglu

Iglu daybed
(White + roof fabric
white and iceberg)

Iglu Collection

Ramón Esteve
2022 - 2023

The new Iglu daybed, designed by Ramón Esteve for Vondom, is inspired by Fuller's mid 20th century geodesic domes. Conceived as a place for shelter and enjoyment, the item shows geometric forms in the outside while the inside has softer lines and shapes.

The dome is formed by linked triangles with a light fabric that provides an interesting set of lights and shades.

Iglu is conceived as a shelter place for the user, inviting us to relax and enjoy.

Ramón Esteve

Outdoor Rugs

Made from recycled plastic by Studio Vondom

At Vondom, we continue to innovate and develop new techniques to come up with new and cutting-edge products. The result of these efforts is brought to life in outdoor rugs made from recycled plastic. These rugs are made for the outdoors; as they have UV treatment incorporated, they resist water and high temperatures, and they are also easy to clean and maintain. They are the perfect decorative complement; adding a warm and cosy touch to wherever you place them.

Save Posidonia

At Vondom, we believe in the commitment to give back to the planet everything it has given us and we are convinced that sustainability is our responsibility. As a company committed to the environment, we are aware of the importance of “posidonia”, the marine lung of the Mediterranean sea, for the planet. For this reason, we collaborate with Fundació Oceanogràfic València for the protection and conservation of posidonia in the Mediterranean coasts. We want to do our part to guarantee a sustainable future and protect our marine biodiversity.
