

**AIDIMME, METAL-PROCESSING, FURNITURE, WOOD AND PACKAGING  
TECHNOLOGY INSTITUTE**

NOTIFIES:

That the company **VONDOM, S.L.**, has carried out the tests for the evaluation of the flammability of upholstered furniture according to the standards UNE EN 1021-1: 15 and UNE EN 1021-2: 15 for the following products referenced in AIDIMME as:

- 1707052-01. "Mobiliario polietileno"
- 1707053-01. "Mobiliario polipropileno"

According to tests reported in report with reference 221.I.1707.041.ES.01 (date of issue: July 17<sup>th</sup>, 2017), the samples mentioned above, present NO IGNITION against the sources of ignition of a cigarette and a flame equivalent to a match in the tests that determine the flammability of upholstered furniture, according to UNE EN 1021-1: 15 and UNE EN 1021-2: 15 standards.

According to section 0.3 "Method of use" of British Standard BS 5852: 06, the flammability of cigarettes described in EN 1021-1 is equivalent to "ignition source 0", as well as the match flammability described in The EN 1021-2 is equivalent to the "ignition source 1". Therefore, the results contained in the report mentioned above are equivalent.

And for the record and the appropriate effects, where appropriate, the present document is signed, in Paterna, on July seventeen of two thousand and seventeen. (7/17/2017).

  

Signed: Mr. Stephane García Malpartida  
Head of Fire Lab. AIDIMME
