

LOVE SEDIA

By Eugeni Quitllet

This collection is designed by Eugeni Quitllet and inspired by the concept of love, a feeling that involves body and soul, invisible to the human eye, but a wonderful embellisher of everything that surrounds us. The injection manufacturing technique allows each piece to have its own personality, through simple and curved silhouettes, which fit in an organic and natural way; this collection is suitable for both indoor and exterior spaces.

In addition, this collection is part of our eco-intelligent commitment, Vondom Revolution, based on the optimization of the natural resources of the Mediterranean Sea. Inspired by the sea's breeze and textures, we present a sustainable alternative to the Love chairs, in exclusive colours such as the: Milos and Cala colours, from recycled plastics from the Balearic Islands. And the Manta tone taken from recycled fishing nets.
