

Adan planter 49x68x70

by Teresa Sapey

Teresa Sapey surprises us with her creations, this time through the ADAN Collection for Vondom, an item with a lot of personality, and a shape which is faceted, like that of a diamond. More than objects, they are multifunctional architecture pieces, since besides being used as design planters, they can be used as seats, flower pots, auxiliary tables... They are lifestyle objects that create a stir, fitting in with any style and are made of materials that allow for both outdoor and indoor use.
