

LAVA BENCH

By Karim Rashid

Lava is a unique experience resulting from the combination of beauty, luxury, performance and practicality. LAVA, is an undulating, cloud-like bench, a really huge organic rounded sculpture which is obtained through the difficult manufacturing process of a rotational moulding technique. LAVA, with it's trend-setting and original shape creates a pleasant, natural and relaxing gathering spot or connection in any interior & exterior space. It is an original and different way for the user and furniture to interact. To add an extra special touch it's possible to join an energy saving or LED RGB light to LAVA. This option will no doubt fascinate whoever sees it...an even more spectacular and pleasurable environment.
