

VELA CATERING BAR ICE BUCKET

By Ramon Esteve

This extensive outdoor furniture and plantpot collection aims to offer the comfort and the quality of interior furniture without losing it's original qualities. VELA is a modulate system with an elementary prismatic geometry that bases its singularity in the balance of its proportions. The elements can combine among themselves to integrate into any space. Their precise volumes create the illusion of hovering some centimetres off the floor, and when they are illuminated they are transformed into floating architectures.
